Dear Prof. Llining:

Dr. Bibb (at USAEC) was kind enough to send me a copy of your Nov. 1965, FOA 1 report C1164-F17 which, of course, raises some very interesting questions that may have been answered in your further work.

Would you do me the favor of sending me your publications in this area?

I will be at the Nobel/14 Symposium at Södergarn from Sept. 15-20, and may take advantage of the occasion to try to reach you by phone during that time. If you have any occasion to contact me, you can leave a message via Dr. Nilsson at the Nobel Foundation.

Yours cordially
